Thank you for your interest in ODCA's [RFP 2020-03](#), an audit of the D.C. Office of Unified Communications (OUC) 911 Operations Division. We received several excellent proposals from highly qualified bidders, and after a careful review by our Proposal Review Panel, we realize that we require more time to verify the performance history and references of each candidate. We anticipate contacting the top candidates early next week (Monday, 11/9) to schedule online interviews before our final selection on Monday, November 16. Please see our updated project timeline below:
